CAUSE OF DEAFNESS. The Most Common Cause Only Recently Discovered. It has been stated on good medical authority that nine-tenths of cases of deafness are caused from catarrh or from sore throat trouble.

The little tube which leads to the ear from the throat is lined with a sort of velvety structure called mucous membrane. This membrane is simply a continuation of the mucous membrane lining the throat. When disease of any sort attacks the mucous membrane of the throat it is very liable to extend into the Eustachian tube and up into the ear.

The history of nearly all cases of deafness is like this: A cold is contracted and neglected, other colds are taken, the throat becomes sore and inflamed, which is aggravated by particles of dust and germs from the air. This condition causes the disease to spread into the tube that leads to the ear.

It seems a little far fetched to say that most cases of deafness are caused from catarrh, but it is certainly true, and any one who has had a severe catarrhal cold must have noticed how the hearing was effected while the cold lasted.

With catarrh sufferers this impairment of hearing becomes chronic and grows worse the longer the catarrh is neglected.

You can cure catarrh and deafness by the regular use of an excellent new preparation called Stuart's Catarrh Tablets, composed of antiseptic remedies which reach both the mucous membranes but principally and most effectively on the blood, eliminating the catarrhal poison from the system.

People whose hearing is defective may think it a little remarkable that a simple and harmless tablet would very often remove all traces of deafness, but when it is remembered that catarrh causes the deafness and that the catarrh is easily cured by the regular use of Stuart's Catarrh Tablets there is no mystery about it.

If you are subject to nasal catarrh or catarrh of throat, bronchial tubes or catarrh of stomach and liver, the safest and most effective treatment is the new catarrh specific, Stuart's Catarrh Tablets, sold by all druggists at 50 cents for full sized package.
